that this is adoptable at this particular part of the statute. I am not saying that it isn't important but I believe that we should let that go by now and we will discuss it further and if we can show that it really needs doing, we can tack that on on Select File. I don't think we need to do it right now.

PRESIDENT: Senator Cavanaugh.

SENATOR CAVANAUGH: I would like to know where this amendment is. Is it on our desk or in the book? It sounds like an important amendment to a non-controversial bill that would make it controversial. I'd think that we should have it printed and the bill should be laid over. I will ask Senator Nichol. What do you think, Senator Nichol?

SENATOR NICHOL: Mr. Chairman, that is fine with me, and if I might have permission, print it in the Journal. That is fine but I thought we didn't want to hold it over was the only reason I went this route and if you would like to have it over, it is very fine with me but Senator Mills objected. So I was trying to get along.

SENATOR CAVANAUGH: This appears to be a controversial bill. It used to be that if anybody had any amendments or if there was any dissent on a bill, it was controversial and it was laid over. I don't know what. We are playing by different rules this year so...

SENATOR NICHOL: Would it be all right with you, Senator Cavanaugh, if we attempt to put it on on Select File and go ahead and move the bill? This would be acceptable with me.

SENATOR CAVANAUGH: I would rather have it discussed here. If it is going to be controversial, the bill should stay here and be discussed here like normal. It shouldn't be slid by as a non-controversial bill.

SENATOR NICHOL: It is agreeable with me either way so why don't you talk with Senator Mills and see what he wants to do.

SENATOR CAVANAUGH: I know he wants to slide the bill by but I don't think that it should.

PRESIDENT: We are still talking about the motion. Senator Burbach.

SENATOR BURBACH: Mr. President, members of the Legislature, Senator Nichol has agreed to withdraw his amendment at this time and discuss it or add it to on Select File. Now we are not asking that all these bills be placed on Select File and discussed them then. We are trying to do this in an orderly fashion but Senator Mills, as a grain dealer, and I, as a former grain dealer, have great concern in this area. I do not know all the ramifications of the dry edible beans but I will sure avail myself of that information by the time it gets over to Select File, and possibly at that time, I would vote for or oppose it,
